

# PRODUCT SPECIFICATION

## A – PLUS <sup>A+</sup>

Temperature / Temperature – Humidity Logger

✧ Included with Calibration Certificate

Model 101 plus ( Temperature Logger )

Model 102 plus ( Temperature & Humidity Logger )

■ Alarm Setting & " MARK " Setting

■ Min / Max Reading Memory

■ An indispensable QC and Test Instrument where constant temperature and humidity monitoring is required

Data Storage	8640 Points ( 30240 points - Optional )
Temperature Range:	-30 - 70 °C
Humidity Range	0 % to 100 % RH
Accuracy ( Temperature )	± 0.5 °C
( Humidity )	± 3.5 %
Sampling Interval:	10 Seconds to 18 hours
High /Low Alarm:	Can be set according to user's requirement
Alarm Type:	Alarm lamp Flash / Display shown
Alarm Delay	From 0 to 254 mins
Start mode :	Press Button
Stop Mode:	Press Button , Memory Full , Plug into USB
Protection	IP30
Battery	CR2032
Standard Compliance:	CE,ROHS,EN12830
Calibration	Traceable to NIST
Dimension & Weight :	95 x40x17 mm ( 36 grams )
