Single Use Temperature / Temperature – Humidity Logger

※ Included with Calibration Certificate

Model S101 (Temperature Logger)

Model : S102 (Temperature Logger)

 Alarm Setting & " MARK " Setting

 Min / Max Reading Memory

 Suitable for drug transport and temperature sensitive products to monitor its temperature

Data Storage	8640 Points
Temperature Range:	-30 - 70 °C
Accuracy (Temperature)	± 0.5 °C
Sampling Interval:	10 Seconds to 18 hours
High /Low Alarm:	Can be set according to user's requirment
Alarm Delay	From 0 to 254 mins
Start mode :	Press Button
Stop Mode:	Press Button
Protection	IP 55
Standard Compliance:	CE,ROHS,EN12830
Calibration	Traceable to NIST
Dimension & Weight :	85 x 38 x12 mm (20 grams)
